

Level 1 Automotive Engineering (Full-Time)

This one year course covers the fundamental skills & knowledge common to all Motor Vehicle practices. The course aims to explore all mechanical and electrical systems, typical to light vehicles. The course is completed by means of 2 on line exams and a series of assignments and practical tasks carried out in our excellent workshop facility. This is designed for students with an interest in working with cars and vehicles, wanting to become a mechanic, to work in a garage or any motor engineering industry.

Entry Requirements

GCSEs of D/E & above is desirable, but practical experience is also considered. Students must attend GCSE resist classes that will run alongside their full time program when progressing on to a level 2 course.

Career Prospects

Students can continue their studies and progress onto full time level 2 automotive engineering program or enter into employment and continue to study full time or day release basis if sponsored in a Modern Apprenticeship with a participating employer.

Course Modules

This course covers the basic skills and knowledge that underpin Motor Vehicle practice in general.

The course aims to explore all the mechanical and electrical systems typically used with light vehicles.

You will need to complete two online multiple choice question exams to complete the course and a series of assignments and practical tasks to complete in our cutting edge workshop.

Assessment

This course requires continual assessment of College based assignments which will be collated as portfolio evidence to meet the needs of the awarding body.

Online examinations will be scheduled at key stages throughout the course. Development of Literacy and Numeracy Skills.
