Level 1 Diploma in Food Industry Bakery Skills – FDQ (Full-Time)

The Level 1 Diploma in Food Industry Bakery Skills (FDQ) is a full-time further education course at NPTC Group of Colleges designed for students who are considering a career as a baker or within the wider food manufacturing industry. Students will develop practical baking skills alongside essential knowledge of food industry processes, combining hands-on activities with classroom-based learning. The course provides a strong introduction to bakery production and food industry practices, supporting students in developing the skills and confidence required for progression to further study or entry-level roles within the sector

Entry Requirements

Students should have achieved GCSE Mathematics and English at grades A–G or hold equivalent qualifications. Entry to the course is subject to a successful interview.

Career Prospects

This qualification provides progression to the Level 2 Diploma in Professional Bakery Skills and offers a foundation for employment within the bakery and food manufacturing industry.

Course Modules

Basic bakery skills and techniques Introduction to food production processes Food safety and hygiene practices Ingredient knowledge and preparation Workplace skills for the food industry

Assessment

Students will build a portfolio of evidence throughout the year, including practical work and assignment-based tasks to demonstrate their skills and knowledge.

Additional Costs

There will be additional course-related costs, including uniform and equipment.
