

Level 3 Award in the Requirements for Electrical Installations BS 7671:2018 (Part-Time)

This course provides learners with a comprehensive understanding of the IET Wiring Regulations (18th Edition, Amendment 3).

The qualification focuses on the application of the regulations to the design, erection, inspection, testing, and verification of electrical installations, including additions and alterations to existing systems.

This course is ideal for individuals working, or intending to work, in the electrotechnical sector and learners seeking a formal qualification in the IET Wiring Regulations.

Entry Requirements

None

Career Prospects

Successful delegates gain increased employment opportunities in electrotechnical roles, and gain the ability to progress onto further electrical qualifications.

Course Modules

This course covers:

- Scope, object, and fundamental principles of BS 7671
- Definitions and terminology within the Wiring Regulations
- Assessment of general characteristics of electrical installations
- Protection for safety in electrical installations
- Selection and erection of equipment
- Inspection and testing requirements
- Special installations and locations
- Requirements contained in Part 8 and the appendices of BS 7671
