Level 3 Games Development UAL (Full-Time)

This two year course is designed for anyone with an interest in gaining knowledge, skills and understanding of a broad range of digital and creative disciplines. It allows students to explore programming, script writing, production, audio, visual and interactive technology, and provides the opportunity for students to specialise in the diverse and increasingly growing games industry. This is a challenging and engaging course, providing many of the skills required to progress to Higher Education or the workplace.

Entry Requirements

5 GCSEs A*-C, or relevant Level 2 qualification and interview

Career Prospects

There are broad career prospects for a student with a Games Development qualification, which can range from conventional IT roles to a more specific career in Game Development. The Games industry is now the 3rd largest industry in the world, with demand for game developers expected to grow with the advancement of technology and the expanding market.

Those roles specifically related to games development include:

Games Designer

Game Programmer

AI Programmer

System and Level Designer

Games Engineer

Asset, Game, Character, Technical or Environmental Artist

Game Tester

Animators

Illustrators

Narrative Designers
